As the EIA Deputy Administrator, Howard assists the Administrator in collecting, analyzing, and disseminating independent and impartial energy information to promote sound policy-making, efficient markets, and public understanding of energy and its interaction with the economy and the environment. EIA provides a wide range of information and data products covering energy production, stocks, demand, imports, exports, and prices. EIA also prepares analyses and special reports on topics of current interest. Howard works closely with the Administrator to provide overall leadership, planning, and policy direction for the agency, and, when necessary, he serves as Acting Administrator.

Before joining EIA, he was a Resident Scholar at Resources for the Future. From 1993 to 2000, Howard served as Director of Economic, Electricity and Natural Gas Analysis in the Department of Energy's (DOE) Office of Policy, having originally come to DOE in 1991 as Deputy Assistant Secretary for Economic and Environmental Policy.
