7. If your answer to the question in item 3 is "yes," do any of the entities disclosed in item 4 have parent organizations, subsidiaries, or partnerships that you are not representing in your testimony?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
8. If the answer to the question in item 3 is "yes," please list any Federal grants or contracts (including subgrants or subcontracts) that were received by the entities listed under the question in item 4 on or after October 1, 2009, that exceed 10 percent of the revenue of the entities in the year received, including the source and amount of each grant or contract to be listed: <u>NA</u>		
9. Please attach your curriculum vitae to your completed disclosure form. <u>NA</u>		

Signature: _____

Date: 7/13/12

Margo Tsirigotis Oge
Director, Office of Transportation and Air Quality
Office of Air and Radiation
United States Environmental Protection Agency

Ms. Oge has been instrumental in the Environmental Protection Agency's efforts to reduce air pollution and greenhouse gas emissions from the U.S. transportation sector.

Under Ms. Oge's leadership, EPA has finalized several historic rules. Most notable, is the Agency's first-ever national greenhouse gas emission standards for cars and heavy duty trucks. Also, she finalized an expanded renewable fuels standard which will significantly increase the volume of biofuels in our nation's fuel supply. These actions take significant steps forward in improving the sustainability of the U.S. transportation sector.

Other successes completed by EPA under Ms. Oge's guidance include the clean Tier 2 vehicle and gasoline sulfur program, the 2007 clean diesel truck and bus program, and the clean nonroad diesel engine and fuels program. By reducing over 90 percent of the harmful pollutants emitted from on- and off-road engines, these three programs are estimated to prevent over 26,000 premature deaths and hundreds of thousands of respiratory illnesses each year.

Ms. Oge has been with the Environmental Protection Agency since 1980 and has held various management positions in the Agency. In 2009, Ms. Oge received the California Air Resources Board's Haagen-Smit Clean Air Award for her efforts to protect California air quality and public health. In 2004, Ms. Oge received the Presidential Distinguished Executive Rank Award for her outstanding leadership on environmental transportation issues. She is a previous winner of the Presidential Meritorious Award. In 2002, the Women's Council on Energy and the Environment honored Ms. Oge with its Woman of Achievement Award. Ms. Oge was recognized for her leadership in shepherding the Tier 2 and heavy duty diesel rules to fruition. She was the first nonpolitical appointee to receive this award.

Ms. Oge earned her Master's Degree in Engineering from the University of Massachusetts Lowell. She also attended George Washington University and the John F. Kennedy School of Government at Harvard University.
